DETAILED ACTION

Allowable Subject Matter

Claims 1-30 are allowed. The following is an examiner's statement of reasons for allowance:

The Examiner considered Patent Number 3,002,601 by Reis to be the prior art most closely related to the Applicant's claimed invention. The coin sorting and counting apparatus disclosed by Reis incorporates hopper 8, pins 14 and receptacles 34 that read on the Applicant's receiving area, sorting area and drawer, respectively. However, Reis fails to disclose or suggest a semi-automatic opening device (cf. Applicant's independent claims 1 and 15) or a drive unit/mechanism (cf. Applicant's independent claims 6, 20 and 26) that displaces a coin storage area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Art Unit: 3653

Patent Number 5,902,178 by Perkitny because of its coin tubes 56, and

Patent Number 2,886,045 by Brown et al because of its drawers 126.
